Alex Kim

CLOUD & DEVOPS ENGINEER

alex.kim@example.test | +1 (555) 010-2026 | Portfolio: example.test

PROFESSIONAL SUMMARY

Cloud and DevOps engineer focused on reproducible infrastructure, safe deployments, and observable services. Experienced supporting development teams through automation and practical reliability improvements.

CORE SKILLS

AWS | Docker | Kubernetes | Python | Java | SQL | Linux | CI/CD | REST API

PROFESSIONAL EXPERIENCE

Cloud Engineer | Summit Grid | 2023 - 2025

Automated AWS environment setup with reusable infrastructure templates and Python utilities. Standardized Docker images and Kubernetes health checks for multiple service teams. Improved release visibility with deployment dashboards and actionable alerts.

Platform Engineering Intern | Clearpath Tech | 2022 - 2023

Built CI/CD checks for Java services and SQL migrations. Wrote runbooks and helped developers reproduce service issues in local containers.

SELECTED PROJECT

Resilient service lab | AWS, Kubernetes, Docker, Python
Created a sample service deployment with health probes, resource limits, automated build checks, and recovery notes.

EDUCATION

B.Tech in Information Technology | Redwood Technical University | 2022
Relevant study: Cloud Computing, Distributed Systems, Computer Networks
