Samira Patel

DATA ANALYST

samira.patel@example.test | +1 (555) 010-2026 | Portfolio: example.test

PROFESSIONAL SUMMARY

Data analyst who turns operational and customer data into clear decisions. Comfortable with data cleaning, exploratory analysis, dashboard development, and explaining findings to non-technical partners.

CORE SKILLS

Python | SQL | Excel | Power BI | Tableau | Data Analysis | Machine Learning | MySQL

PROFESSIONAL EXPERIENCE

Data Analyst | Harbor Metrics | 2023 - 2025

Queried and validated sales data with SQL and Python, reducing recurring reporting preparation by 40%. Built Power BI dashboards used by managers to track weekly retention and service trends. Presented concise recommendations to operations leads.

Analytics Intern | Cedar Research | 2022 - 2023

Used Excel and Tableau to analyze survey responses and communicate segment-level trends. Documented data quality checks and reproducible analysis steps.

SELECTED PROJECT

Retail demand study | Python, SQL, Machine Learning
Analyzed transaction patterns, compared baseline forecasting approaches, and summarized seasonal demand signals in an interactive report.

EDUCATION

B.Sc in Statistics | Greenfield University | 2022
Relevant study: Applied Statistics, Database Systems, Research Methods
