Taylor Brooks

JAVA SOFTWARE ENGINEER

taylor.brooks@example.test | +1 (555) 010-2026 | Portfolio: example.test

PROFESSIONAL SUMMARY

Software engineer delivering maintainable application features and service integrations. Brings a strong foundation in Java, relational data, API design, and collaborative delivery.

CORE SKILLS

Java | SQL | MySQL | REST API | Docker | AWS | Python | JavaScript | Git

PROFESSIONAL EXPERIENCE

Software Engineer | Meridian Apps | 2023 - 2025

Implemented Java service features for order and account workflows. Optimized MySQL queries and added REST API validation, reducing average response time by 24%. Coordinated releases with QA and product colleagues.

Application Developer Intern | Westlake Digital | 2022 - 2023

Added JavaScript interface improvements and Python test utilities. Packaged development dependencies with Docker and documented AWS test-environment procedures.

SELECTED PROJECT

Community lending portal | Java, MySQL, REST API
Built application and repayment workflows with role-based access, database-backed records, and API integration tests.

EDUCATION

B.Sc in Computer Science | Brookstone University | 2022
Relevant study: Object-Oriented Programming, Algorithms, Database Systems
